

Important Reminders

1. Only list those students receiving need-based financial aid that participate at the **VARSDTY** level.
2. **Please do not list individuals whose award amount exceeds the amount the individual qualifies for. That student-athlete would be INELIGIBLE to participate at the varsity level.**
3. When filling out reports for each sport (Fall / Winter / Spring), please **make sure that each individual listed has been submitted on your supplemental form**, and we have that student's form from your selected financial institution. *It is best to have your supplemental list on hand when filling out the rosters for each sport so you can make sure the proper information is on there.*
4. Please make sure the name you submit on the forms for each sport matches the name you submitted on the supplemental list. Please do not list nicknames, middle names, etc.
5. Please list boys' and girls' sports separately and not on the same form. Do not combine sports such as track, tennis, golf, cross country, and basketball.
6. Please be sure you are using the same financial institution for all of your student-athletes. You may choose a different company for non-athletes if you wish; however, ALL athletes must apply with the same institution (SSS, FACTS, FAST, PSAS, FFNA, SMART, TADS).
